EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with attorney David C. Oren on 1/6/06.

The application has been amended as follows: Incorporate the limitation of dependent claim 19 into independent claim 18 by replacing claims 18 and 19 as follows:

18. (Currently Amended) A method for processing AAL2 supporting multiple virtual channels comprising: (a) multiplexing packet data transmitted from at least one AAL2 user to generate protocol data; (b) assigning virtual channel identification information (R_Tag), corresponding to a destination, to the protocol data, and grouping together protocol data having a same virtual channel identification information before transmitting the data to the destination; and (c) transmitting the protocol data through a corresponding virtual channel according to the assigned virtual channel identification information (R_Tag),

Art Unit: 2666

wherein a predetermined byte having identification information for identifying the virtual channels is additionally assigned to the protocol data, and the identification information indicates whether a CPS-packet length is 53 bytes or a length different than 53 bytes, wherein (a) further comprises: assigning a header to the packet data, said header including CID information, UUI information, and HEC information; and assigning the virtual channel identification information and a start field to the packet data to which the header is assigned, said start field including OSF information, a sequence number of the protocol data, and a parity bit for correcting error.

19. (Canceled)
